Dhiraj Sharma

Sr. Software Engineer – AI Engineer

Email: sharmadheeraj849@gmail.com | Phone: 9782952535 | Location: Noida, India
GitHub: github.com/dhiraj849 | LinkedIn: linkedin.com/in/dhiraj-sharma-417309217

Skills

Languages: Python, JavaScript, SQL, HTML, CSS
Backend & APIs: Django, REST API, Node.js, .NET, FastAPI,
AI/ML: YOLOv8, OpenCV, Computer Vision, LangChain, RAG, LLMs (GPT, Llama, Mistral), Generative AI, NLP, Scikit-Learn
Data & Messaging: MySQL, PostgreSQL, MongoDB, Redis, Kafka, RabbitMQ, Pandas, NumPy, PySpark
Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Nginx, Jenkins, CI/CD, Git

Work Experience

Triazine Software Pvt. Ltd, Noida Sep 2022 – Present

Sr. Software Engineer

- Built and deployed a YOLOv8-based computer vision system to classify empty, half-filled, and full popcorn buckets in real time, achieving 90%+ accuracy and directly reducing revenue leakage from fraudulent sales.
- Designed and optimized scalable REST APIs using Python and Django, improving database query performance and reducing response time by 40%.
- Engineered automated data pipelines integrating SAP and third-party APIs, processing 100,000+ records/day and cutting manual effort by 70%.
- Developed a digital payment and billing platform for Central UP Gas Limited, featuring real-time billing, meter integration, and seamless online payments.
- Built a Generative AI-powered chatbot using RAG architecture with LangChain, enabling intelligent document-based querying and context-aware answers over enterprise data.
- Implemented CI/CD pipelines and automated cron jobs, improving deployment speed, system reliability, and production stability.
- *Stack: Python, Django, YOLOv8, OpenCV, SQL, SAP, REST API, AWS (EC2, S3, Lambda), Docker, Cron Jobs.*

AttainU, Bangalore Jun 2021 – May 2022

Full Stack Developer Intern & Student Mentor

- Completed a full-stack development internship, gaining hands-on experience building scalable web applications with HTML, CSS, JavaScript, React.js, Node.js, and Python.
- Strengthened problem-solving skills through DSA and System Design concepts, improving code efficiency and application performance.
- Served as a Student Mentor, guiding peers in project development, code reviews, and debugging sessions.
- *Stack: HTML, CSS, JavaScript, React.js, Node.js, Python*

Education

IIT Jodhpur Mar 2025 – Present
B.S. in Artificial Intelligence and Data Science
Relevant Coursework: Machine Learning, Deep Learning, Data Analytics, System Design; hands-on projects using Python, SQL, TensorFlow, Scikit-Learn.

Rajasthan University, Jaipur (MCIT) Jul 2018 – Mar 2022
B.Sc in Mathematics
Relevant Coursework: Calculus, Linear Algebra, Probability, and Statistics applied to Data Analysis and Computational Modeling.

Project Work

- **Tellit – AI-Powered Storytelling Platform (Mar 2026 – Present):** Consumer AI platform converting photos, videos, and voice notes into written stories and short cinematic videos; built multi-LLM (GPT, Llama, Mistral) content pipeline with vector-DB memory and Kafka/Redis event architecture.
- **Prime EHS – AI-Based Safety Monitoring (Jan 2025 – Feb 2026):** Built a computer-vision PPE detection module for real-time safety compliance and a RAG-based chatbot with LangChain for safety-guideline querying and alerting.
- **Popcorn Bucket Fraud Detection – PVR Cinemas (May 2024 – Dec 2024):** Trained and deployed a YOLOv8 model on 1,200+ labeled images to flag under-filled buckets sold at full price, reaching 90%+ classification accuracy.

Awards and Certificates

- **Quarter of the Employee Award** – Recognized at Triazine Software for outstanding performance and project contribution.
- **HackerRank Problem Solving Certification** – Demonstrated strong problem-solving and algorithmic thinking.
- **Mentor at AttainU Academy** – Guided students on problem solving and coding fundamentals.
